Programa: EXAMEN2

JCL: JEXAMEN2

Lee un archivo QSAM de novedades de cuenta de débitos y créditos. Realiza un corte de control doble por clave TIPO y NRO DE CUENTA y por tipo de movimiento. Contabiliza cantidad de DB y CR por clave de cuenta. Y genera un listado con los saldos actualizados (resultado del saldo acumulado leído desde el archivo de novedades, adicionado al monto total leído de la tabla de clientes), con fecha del día de proceso.
